**CONTRACT TERMS**

- State agencies and participating co-op agencies are to work with the local dealer for ordering, however the manufacturer will be paid direct for any orders placed under the contract.
- C/S Code for retread tires: 86365
- If your agency encounters any problems regarding quality of product/service or delivery time, send your complaint, in writing, to the Division of Purchasing and Materials Management.
- All tires ordered from this contract shall be delivered within a reasonable time, not to exceed fifteen (15) calendar days after receipt of order. Do not pay the local dealer; an agreement between the manufacturer and the dealer enables the local dealer to receive payment from the manufacturer instead of from the state directly.
- Warranty information is provided in the back of the Goodyear Federal Open Market & Net State Price Book dated 1/1/02.
- The Federal Open Market & Net State Price Books dated 1/1/02 along with a current list of Goodyear Distributors are available at [www.goodyear.com/gov](http://www.goodyear.com/gov)

**Retread Tires**

*Environmentally Friendly*

**Facts & Features**

- ❖ While it takes about 7 gallons of crude oil to manufacture one new passenger tire, a retreaded tire requires only 2.5 gallons.
- ❖ Retreading tires helps to conserve approximately 400 million gallons of oil per year while it also diverts thousands of scrap tires from disposal.
- ❖ The cost of a retreaded tire will usually be 30 to 50 percent less than the cost of a new tire. Each year this translates to more than \$2 billion in savings to motorists.
- ❖ Retreaded tires are processed according to the Federal Safety Standards developed by the U.S. Department of Transportation.
- ❖ Retreaded tires can be driven at the same speeds-including highway and Interstate speeds-as new tires, with no loss in safety or comfort.
